EXAMINER'S AMENDMENT

- An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
- The application has been amended as follows:
- Claims 1,6-9,11-16 and 18 are cancelled.
- Authorization for this examiner's amendment was given in a telephone interview with Mr. Mario A. Costantino on 09 March 2005.

REASONS FOR ALLOWANCE

- The following is an examiner's statement of reasons for allowance: The present invention is directed to an image capturing control method and device. Both independent claims identify the uniquely distinct feature, "for generation position information which specifies a position of a region designated in advance and controlling a display device so as to display an image according to a portion of said image data corresponding to a read out position information". The closest prior art, Marugame (USPN 5,995,649), discloses an image processor comprising an image pickup portion to take in an image of an object, a reference point extracting portion that extracts a reference point to be used in object extraction from images taken by the image pickup portion and an object display control portion that extracts an image of the object from images photographed by the image pickup portion based on coordinates value of contour point and displays it on a display device; while Miyamoto (USPN 5,687,409), discloses camera display device for displaying information based on photographic optical system focusing control, either singularly or in combination, fail to anticipate or render the above underlined limitation obvious.

- Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
